Vertical Transportation Noise Solutions

Hydraulic and Traction Lift Systems, Car, Mechanical Room & Hoistway

noise | [noiz] | noun

Intrusive sounds that are loud, unpleasant, unexpected or undesired, invading our state of mind and health.

Acoustics Group delivers noise reduction solutions designed for and sold only through our vertical transportation company partners.

While no product will provide 100% noise reduction, the engineered CQuiet products provide easily installed solutions for noise reduction of facility and mechanical.

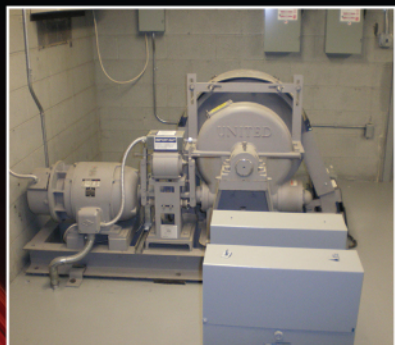

so•lu•tion | [suh-loo-shuhn] | noun

The process of determining the correct answer to a problem.

Acoustics Group, in partnership with industry professionals, has collectively identified and developed solutions for VT industry noise challenges. We're confident that our CQuiet Noise Reduction Products can help solve your specific noise problem too.

Whether it's corrective action for noise complaints, compliance with regulations, or to be an industry leader with quiet products; we're here to help you meet those objectives.

Your challenges are our business opportunities; give us a call to discuss your project specifics.

qual-i-ty | [kwol-i-tee] | noun

The standard of something as measured against other things of a similar kind.

Acoustics Group engineered noise reduction solutions are backed by the same manufacturing, engineering, quality standards, and business principals of our parent company C.E. Electronics, Inc.

C.E. Electronics is a leader in providing innovative, problem-solving products for the elevator and industrial markets for more than 30 years. Our "meet the need" attitude has brought us to the forefront with solutions to our core industry markets.

in-teg-ri-ty | [in-teg-ri-tee] | noun

The quality of being honest and having strong moral principles.

C.E. Electronics, Inc. has built its 30+ year reputation on ethical and honest business practices. Our staff of dedicated professionals interaction with every customer is with the courtesy and respect they deserve.

As trained problem solvers, we are ready to assess your noise issues, devise a plan of corrective action, while focusing on the complete satisfaction of our customers.

We work for you.

C.E. Electronics - Acoustics Group is focused on providing cost-effective solutions to noise problems within the vertical transportation market. With the CQuiet™ Noise Control Products introduction, we are continuing the 30 year C.E. tradition of bringing practical and effective solutions to the marketplace.

Experience and success has allowed C.E. to grow and expand our core capabilities to include full scale design and manufacture of innovative noise solutions. Today, C.E. manufactures high performance products needed to solve many of the industries noise problems. CQuiet™ products address specific noise problems in Hydraulic, Traction and MRL systems and their respective room environments.

Our 65,000 sq. ft. facility in Bryan, OH supports the skills and operations necessary to assure our continued delivery of high quality products. Our facility has the room and flexibility to accommodate both the manufacture of custom solutions and our standard CQuiet™ products.

C.E. has a rich history of innovation and creative problem solving simply because we take the time to listen to you about the challenges you face. Our "meet the need" attitude has brought us to the forefront with solutions to our core industry markets. We consider your challenges as business opportunities.

The Acoustics Group has a complete range of noise solution products and engineered systems for the vertical transportation market. CQuiet™ product solutions are only available through your elevator service contractor.

If you are the facility manager or owner, have your elevator company contact us directly to discuss your facilities elevator noise problems.

C.E. Electronics - Acoustics Group is committed to continued growth, innovation and success – ours and our customers'.
